## CAREER OBJECTIVE

I'm a Full Stack web developer. I am always ready to learn any technology or language. I am a highly dedicated, disciplined, and self-learning individual looking to expand my horizons in Web Development. I'm an expert in JavaScript and ReactJS. I have successfully done some projects.

## SKILLS

**Expertise:** HTML, CSS, Tailwind, JavaScript, ES6, React

**Comfortable:** Bootstrap, MongoDB, Firebase Authentication

**Familiar:** Node, Express, TypeScript, Material-UI, Redux

**Tools:** Visual Studio, Git, Heroku, Netlify, Vercel, Firebase

## PROJECTS

ToyPuzzles [Live](#) | [Code](#)

- User login authentication using Google or Email/Password.
- After login user can be added, updated, delete, and shown toy in the home page.
- The user loads the private route and then shows the loading skeleton.

**Tools:** This Project is MERN Base Project and also uses the tools Firebase, Tailwind, and Vercel.

IndianChef [Live](#) | [Code](#)

- Users easily get information from the chef and find their recipe.
- If the user clicks the favorite recipe button then the button is disabled.
- The whole site is Mobile Responsive and uses Private Route.

**Tools:** This Website is an Information Base Project and also uses the tools Vercel and Authentication.

LearnEnglish [Live](#) | [Code](#)

- Users find a category and their courses.
- User login authentication using Google or Email/Password.
- After Login users can download their course.

**Tools:** This Project is React Base Project and also includes the tools Firebase and Vercel
